

The screenshot shows the Schoology web application interface. At the top is a dark navigation bar with the Schoology logo, a search icon, and tabs for Home, Courses, Groups, and Resources. On the right of this bar is the user's name, Tim Bray. Below the navigation bar is a sidebar on the left containing icons for Course Options, Materials, Updates, Gradebook, Attendance, Members, and Analytics. The main content area displays a course titled "Schoology in the Classroom: Section 1" with a crown icon. Below the course title are buttons for "Create", "Join", and "See All". To the right of the course title is a "Notifications" button. Below the course title is a message: "There are no assignments for this course. Use the Add Assignment button in the right column to create an assignment." To the right of this message is an "Add Assignment" button. At the bottom of the sidebar, there is a section for "Invite Colleagues" with an "Access Code" field showing "2XJX9-SZHND" and a "Reset" button. Three black arrows point from text boxes to specific UI elements: one points to the "Courses" tab in the top navigation bar, one points to the "Create" button, and one points to the "Access Code" field.

1. This screen shot shows the basic UI (user interface) you will see in Schoology. Across the top of the screen you will see some options; but to complete your second assignment, you will need to go to the Courses tab. The menu will appear with the options to Create or Join.

2. To create a class choose the Create button and if you wish to join a class you can click on join and then enter the course Access Code. Students will use this Access Code to join your class from their accounts.

3. Congratulations! You made your first course.
